

Town of Comox

Application to Install a Residential Water Meter

Owner Name(s)

Residential Address

Email address (optional)

Daytime Phone #

I/we are owners of the above property, and hereby request that the Town of Comox install a residential water meter on this home, in accordance with Council's December 2, 2009 motion that residential customers who are metered be allowed to keep paying flat-rate user fees unless they volunteer to be billed by their metered water use.

I/we understand that I/we will have the opportunity to volunteer for being billed by our metered use only after the Town has measured our water use and reported it to me/us.

I/we also understand that it is the property owner who is responsible for repairing water leaks on their property if the meter identifies there is one.
